We will both get up to 2 BTC until 29 Dec when you sign up for a Robinhood Crypto account with my link and trade at least €10 of crypto.

Link: https://join.robinhood.com/eu_crypto/aurimaj-96b818/

Sign up, do KYC (try to use as best possible lightning, if you do your KYC will go through instantly)
Deposit 1 EUR (its instant if your bank supports SEPA instant, I deposited with revolut and it was instant) and trade crypto 11 times (buy bitcoin and sell bitcoin few times) OR just deposit 10 euro and trade it 2 times

Get your bonus up to 1 BTC (biggest bonus I saw was 300 euro, nothing more than that - usually it's 20-40 euro)

Note: you need to hold your bonus for 1 month to be able to withdraw the bonus, but you can withdraw your deposit right away)
