Thread: [Permanent US Number for Paypal Verification.](#)

Money- - December 23, 2023, 4:45 am

I am looking for a number that I can use with Paypal for long term like subscription.

Do you guys have any service recommendation that I can rent numbers? Since they seem to be gone out of stock quickly.

I also need a permanent number like this! I've been using subscription-based prepaid numbers for 12 months, but I always lose them after that time. I've purchased many numbers like that over the years and now I'm confused about which is which.

Does it have to be a specific country? I can offer you a real number as long as you need

I will ask my friend and will definitely let you know if we can do it, we had it done on a lot of accounts of WhatsApp and everything working even after they block it.

I have sent you a PM. Looking for permanent US numbers though. Rental option too possibly.

Kinda difficult to make it happen for US brother.. everything related to US is hard when we talk about these kinds of business.
