Very good one, and loyal too.

I got a few but the one that takes the cake as of today is Emilia from Re;Zero. What a good gril.

Alright, pretty good choice. At least you didn't say Rem. She's extremely overrated.

Emilia gets so much hate, but I prefer her over Rem.

Holo from Spice and Wolf is objectively the best waifu.

She's intelligent, witty, and her character has a mature beauty that's not nearly as common as it should be.
