(Jan 11, 2024 07:45 AM) Jake Johnson Wrote: [\[CITE\]](#) I received a free trial/vouch copy of the Clear Stream IPTV service. I got it setup on my Apple TV very easily. This was my first time using an IPTV service like this and I was guided on how to setup when I had a few questions. There is tons of content for everybody with this service. Content from lots of different countries. I am from the US myself so I was primarily focused on that content but scrolling through I could see all the various different countries the service offers content for and it was a lot!

Now once I actually found live content I was interested in watching I was surprised at how smooth the service ran. There was zero lag or buffering. I highly recommend this IPTV service if you are looking for one. I had the service on one live channel while I was still finishing up the work last evening. It was playing in the background the entire time. I then switched it to an NBA game once I was winding down for the night. I had zero issues while watching content for several hours straight.

You will not be disappointed I can promise you that.

Sending you a PM now with trial.

theilluminati - March 26, 2024, 4:52 am

Wow.

I about to do a deal with someone else charging twice as much as this. Was interested in selling for them Thought this would be a good place to sell, and then I discovered your offer and now I'm interested. I think I might switch.

May I have a Trial please?

Didn't want to post this here, but I'm not getting a response. Been using IPTV for quite some time and my old service was up for renewal and I thought I had found a better deal with this.

Not to knock anybody else's experience, but it's not working out for me. Can get the trial going, so I'm wondering how it would be if I purchase the actual service:

I'll continue my search, but I'm still interested.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Do you still offer that? If it's possible I would like an 24h test. Thx in advance
