yes, I tried it.

simply make Instagram fake account and log in to that website, the website will use that account as bot to follow others so (DON'T USE YOUR MINE ACCOUNT) also the website will give you a free daily insta serves like followers, likes, views, etc.

that's it I hope I helped you and remember don't use your mine account.

I appreciate genuine connections on Instagram. Let's build a real community! Avoid follower bots;

let's connect authentically and support each other's journeys.
