Thread: [Evilginx mastery course giveaway](#)

hardrite - December 31, 2023, 7:06 am

Hi all, a few months back I "procured" the EvilGinx Mastery Course (normally \$400) and was able to download all the video lessons. Also has the entirety of the discord server (through September of this year) in txt and html formats, and has lots of good info on making phishlets and what not.

I want to give back to this community, so any upgraded members who want it, reply here/PM me and I'll send you a link to download the .zip. I don't live on HF, so allow me time once you message

Namaste hardrite good to know you am i too late :p

Jamika - February 18, 2024, 1:03 am

Thanx for sharing this with the forum

KellyMathers - February 19, 2024, 5:36 pm

very cool! I am a fan of k .

It is very good for real-life simulation but not actual practicality with the shortage of AWS friendly servers in the market.

You can spearphish I guess.

For me, spearphishing was always how EvilGinx was meant to be used, and its most practical use.

dzimy - February 22, 2024, 12:14 am

Sent you the PM for the course.
