I will Mentor 2 members only.

You'll get the Software to Make Unlimited Rotating Proxies using Servers and Subnets.

Places to get Subnet to bypass Hotmail Yahoo and other Providers. You can experiment with other providers to see which are suitable for which.

Works with all subnet ranges!

Billing platform!

And ofcourse people selling per GB, you can catch customers with Unlimited Bandwidth!

Price :- \$300 each (3-5 Hrs Tech Support a day)

Price :- \$600 each (24/7 instant tech support for all your clients)

I already provide this service and you can see the pricing everywhere, goes for around \$300/week to \$1500/mo

Can get you upto 600-900K CPM on high-end servers. For CPM non raped subnets and Cores needed. My current highest CPM holder is 3.6M CPM!

I'll teach you everything needed and work as tech support as much as you need!

I am possibly interested in you mentoring me, but I am wondering what the status is of this dispute with you? You told me you were taking care of it weeks ago but I'm waiting to see it resolved to start thinking about whether I want to buy from you or not. Cheers.
