Thread: [Cure For Autism](#)

SIM-5443119 - January 8, 2024, 12:38 pm

I have some research back scientific cures for autism. Aspergers/mentalcels must realize that they must be willing to do anything that has a scientific basis if it meant they will be cured of their autism.

I am delivering evidence based cures for autism.

If you wish to be permanently cured of autism you need to change your body chemistry namely your gut.

You need a gut microbiota transplant.

The wrong bacteria in your body makes you autistic and the right bacteria makes you NT.

If you can't afford a gut microbiota transplant then getting bacteria from oral saliva is enough. You risk disease but if you are Autistic it is worth the risk. Oral bacteria from NT teenagers will cure you of autism. If you have family then this should be easy. Oral bacteria isn't as effective but it is better than nothing.
