I have completed multiple deals with this user, all went smooth and since I was sending amazon first, I received my payment always within minutes. I'm not sure if that's what I can post in this thread, but just wanted to say this user is #1 for me on hackforums!

I'm looking to deal more Matthew! My name is also Matthew (hope yours is ;))

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Looks like a solid setup using HF contract is always the safest way to go

Market is pretty saturated right now so finding consistent and clean supply is the main challenge

Good luck with your search
