Did you know that the word "lounge" originally referred to a public waiting area? It wasn't until the early 19th century that lounges evolved into more relaxed and comfortable spaces for socializing and leisure. So, the next time you're sinking into your favorite chair in our lounge, remember you're participating in a tradition that goes back centuries! ??

You should lookup the origins of the word 'forum' - we are actually celebrating something much older than a lounge, everywhere on this site.
