Thread: [\[OFFICIAL\] Equilibrium Recruitment OPEN](#)

Allelujah - January 14, 2024, 5:00 pm

Well, it's about that time again. I am not going to attempt to create a high-production recruitment thread. I am looking for some new members to help with a project I want to get going ASAP.

I'll keep this short and sweet: we make minecraft server. i need people who play minecraft and know how build server.

That's it. That's the post. Reply with your love for Minecraft and how you will personally contribute. Ideally, this will result in five or six recruits. I am also open to general group admission just let me know why you want in.

Komodo - January 14, 2024, 5:05 pm

Hello, I am Komodo.

That's all.

I've always had admiration for the group. Although I don't play Minecraft I feel like over the past years I've turned my life around for the better, and have found an equilibrium of my own. Best of luck to anyone considering joining this group, [Allelujah](#) is a great leader, and maybe in the near future [Soulmate~??](#) and [Wander](#) will become more active again in the scene.

Noted. I'll keep this in mind

I would not only really like to join your group but I'd also like to play Minecraft again. It's been a long time and I'd really like to experience that nostalgia. I don't have any experience in creating a server but I'd be an active member.

Trust - January 14, 2024, 5:34 pm

Sup. I play a lot of console Minecraft, but would be open to playing on a PC in an actual server.

I'm also Trust, 25, and work all the time. Give me something fun to do while not working.

Autonomous - January 14, 2024, 7:24 pm

Man, I've been playing Minecraft since the Alpha days.

I haven't played very much since 2020 or so.

I have created small scale Minecraft servers for small friend groups.

My wife and I have also shared a server on several occasions.

It's been a long time, and I am unsure about Bedrock edition servers (I am used to Java)

But I'd love to render assistance!!

Some info about me

I am Auto.

I am married, with two children (One is a toddler and one is one month old) I work full time in an industrial environment and game during my spare time for fun (Mainly CS2 at the moment)

diiiaz - January 15, 2024, 11:21 am

Hi i'm diiaz. 27, and on HF since 2013. I used to play a lot of hackercraft, but i've stopped playing Minecraft.

That's all

I don't play Minecraft, but i wish to be the part of you group. Good Luck btw!

Froggy - February 12, 2024, 11:54 am

I play Minecraft but haven't made a server in years. I can build tho.

based? - February 13, 2024, 10:42 am

I'm based, 24 years old and been a member on HF since 2012 (Recently came back)

I used to play Minecraft ALOT, I sadly quit. As it evolved, I simply couldn't keep up with all the new things.

Out of interest what type of minecraft server?

I host an anarchy server for some friends and their friends - been running for about 4 years now, so lots of stories and history. IE you can go to certain coordinates and remember "ah yeah this is where so and so killed that guy and he TNT'd his entire base".

World isn't destroyed like 2B2T though, there's only like 20 of us lol

Still trying to work this out. I want to soft launch when most of everyone can agree on a time to be on. It's no fun to launch a new server and be the only one online :P

Anarchy sounds fun. That may be what I decide on.

Klonopin - February 13, 2024, 10:38 pm

I can help with some artwork, and managing the discord ? though I don't play or have a Minecraft account anymore.

I can also edit videos quite well.

I love my AFK farms on my server <3

I also have a plugin that keeps chunks near rails loaded - so minecarts can go from one location to another without unloading.

We've even set it up to have full redstone next to it, so somebody 5000 blocks away can flip a lever, and that will go to where the Iron farm is and auto collect some iron and bring it to the base.

Took me hours... well I say me... It took Baritone hours :P

I've been needing a reason to get into Minecraft.. I used to play on prison servers. I have no idea how to build a server but I bring myself above all

Hello, are you still recruiting? I am looking to put forward an application. I don't play Minecraft much. I don't know how to make server or anything but based on your description on the official group thread. I would very much like to be part of the community.

"Equilibrium is a group dedicated to giving support to all users throughout the entire forum on any topic. There have been many groups who have claimed to be helping the forum without showing anything to back it up. The concept of this group was inspired by a quote from Tranquility, the leader of a group formerly known as The Creed. Our members will be dedicated to helping out others in threads which are posing a question or calling us to action. Tutorial threads may be useful, but we feel that single posts who help one or more users inside their own threads are more valuable."

I feel like your description is very much me as a person in general. My morales are right and my heart is pure.

Ps. I love the logo. It's very me! (Asian)
