Thread: [Bytes purchase?](#)

Klyentel - January 16, 2024, 4:12 am

Can I just buy Bytes points? I don't hack, develop, code, or patch. I just like to download useful tools and software I can use for my personal interests. Apparently, I need Bytes points to download anything shared in these forums. I don't have much to contribute to earn points making threads and posting my own content so how do I get the points? I didn't see anywhere to purchase them. I have money, can't I just pay for points?

Yes you can just buy bytes check the [Currency Exchange](#) section of the forum.

Deany - January 16, 2024, 4:26 am

Ye, you can always buy bytes from anyone.

Riggs - January 16, 2024, 4:28 am

Also via [Scratchcards](#) although the ROI might be lower than the current market rate of the [Currency Exchange](#) section.

Jamika - January 16, 2024, 5:26 am

There is section called currency exchange under market with many decent seller, go check them now

sYndroM - January 16, 2024, 6:44 am

Wow. 10+ years and only 3 posts. Solid.

Anyway, just like what they had already said, you can buy bytes here.

Good luck in finding a good deal.
