Thread: [Why I can't give negative popularity to some members](#)

Glowman - January 16, 2024, 9:00 pm

It's saying "Your group is not allowed to give negative popularity ratings."

Then what's the meaning of this reputation system??

I think only uber can do negative!

Also I almost had every thread in page 1 of lounge made by me, but you posted this before I could fully conquer!

It means you haven't paid enough money so you can only give positive and neutral.

I like how the whole reputation system is questioned because leet can't negatively rep. What about spreading the love OP?
