Thread: [Friday Is My Day](#)

Today is my day. Or, it's YOUR day. How are you taking control of your Friday?

I am working hard today 9-530 and then leaving at normal time. Then I'll probably smoke a little with the fiance [Gabriella](#) and watch a movie. It's super cold out so I doubt we'll even want to travel much, but sushi does sound tasty.

Try not to reply to this thread unless it is a Friday!

Sounds like a pretty nice Friday.

I've been coding since the last 3 hours and prob gonna keep going an hour or two before I grab some food.

Then back at it!

Imagine wasting your Friday wasting 3 hours of it doing nothing already.
