Thread: [FREE Cybersecurity Resources \(No BS\)](#)

M?tt - January 19, 2024, 10:35 am

I have been compiling some free resources over the last 4-5 that have helped me in my Cybersecurity journey. Feel free to use these to help with coding, DFIR, Red Teaming, Blue Teaming, and so much more! No fancy thread, just meat and potatoes. This is obviously not every resource available, but I'll gladly add some if you share with the thread.

Online Education:ClassCentral - <https://www.classcentral.com/>

Cybrary - <https://www.cybrary.it/>

HF Threads:[RESOURCE] Best websites to start hacking (by FreddieXx) -

<https://hackforums.net/showthread.php?tid=6261493>

I'll answer a few questions regarding these, but at least do your own work and research before asking. Show initiative because that's the only way you will become remotely successful in this field.

KyO - February 1, 2024, 6:15 pm

HQ post op , true legend

catbird88 - February 2, 2024, 4:13 am

thankssssss! it is interesting !

Walt Disney™ - February 12, 2024, 7:58 pm

Thank you for this list. Some of these didn't exist when I was first learning.

TryHackMe I just started messing with. The site is slow as shit but actually gives good in-depth details and makes you use real tools to learn. The nmap guide is by far the best I've ever seen.

M?tt - February 12, 2024, 8:14 pm

But yea, the rooms offer great beginner-level explanations and appealing to the eye. HackTheBox is great if you already have some experience and don't mind everything kinda blending in together. I plan on giving HTB a try again later this year.

Popular - February 12, 2024, 8:33 pm

Awesome list Matt,
Thanks for sharing with us.

Zayy - February 13, 2024, 5:31 am

fs saving this for later as well. Thanks for the post!

Euaggelistes - February 13, 2024, 7:17 am

What a list! Thanks for sharing.

This one is golden: <https://gtfobins.github.io>
Didn't know about it before.

Spaced - February 13, 2024, 8:16 am

Nice one op. Great share.

There's a massive index of helpful resources which can also be found here:
<https://www.reddit.com/r/hacking/wiki/index/>

Didn't know about it before.

GTFOBins is amazing! I can't for the life of me remember where I found this, but I want to say it was probably one of the TryHackMe rooms. I've used this more times than I can remember. Excellent for CTFs!

M?tt - May 20, 2024, 10:41 pm

I just added Pwn.College (<https://pwn.college/>) to the list. This is definitely one of my favorites now and has helped me get more comfortable with the Terminal.

National Crime Agency UK - May 24, 2024, 5:05 am

Hi. Hopefully these may help as well:
[Resources](#)

SilentSociety - May 24, 2024, 11:26 am

Thanks for the detailed info, im new here and this is helpful
