I do wonder which is your favorite Anime that it worth to watch ?

When you say which one is worth watching, it's very difficult to say because we don't know your taste. What is your relationship with anime? Have you watched any yet? Do you like more short animes or with a long story?

Deany - January 20, 2024, 5:43 am

Gundam is pretty good my dude

drugs - January 20, 2024, 6:54 am

People will say whatever they want, but the Naruto series has always been my top favorite. I'm anxiously waiting for second part of Boruto right now.

I wish I got into One Piece. The new content looks amazing. There's just way too many episodes for me to catch up. I'm the type of person that has to watch everything, including filler, before I watch anything recent.

Burnzy - January 20, 2024, 9:58 am

Death note! Watched it 2 times

Amnesiac - January 21, 2024, 4:45 pm

Death note cliché answer but it's so good

richamirri112 - January 31, 2024, 4:16 pm

FMAB or Jujutsu kaisen has been one of the best I've seen in a while, the fight choreography in that is insane

Jamika - February 1, 2024, 2:00 am

Hxh and one piece , also loved death note

Dracosimp2003 - February 3, 2024, 1:07 am

Chainsaw Man. Nice Story and nice Art Style.

Charlie Sheen - February 4, 2024, 12:32 am

Dragon Ball Z and Dragon Ball Super. Easy for me to decide as those are the only ones I've ever watched. I have heard great things about all the others like Bleach and One Piece and all those but just never really cared to sit down and watch them.

Steven87234234 - February 20, 2024, 11:19 am

Asteroid in Love

Slow Loop

Dropbox - February 22, 2024, 3:54 am

Has to be one piece for me, the journey and the adventures they go on.

The sense of friendship and growing together as a crew.

aphroditei - February 29, 2024, 1:25 pm

Attack on Titan and for me it is not close at all.

This show has been absolute PEAK for me and i've watched it about 5-6 times now and still get hyped every episode.

It has everything, from foreshadowing, gore to near perfect writing, 0 cliches, great hype moments, best music.

Lyralei - February 29, 2024, 2:40 pm

Frieren is slowly becoming my new favorite.

I was super into Death Note but I think it should have ended at like the halfway point

V?rt - February 29, 2024, 7:31 pm

oh man, I have a bunch of favorites, but I think my all-time favorite would probably be Demon Slayer. Just the story line and the insane animations put it over the top for me. Along side those, I would say One Piece, Naruto, Attack on Titan, and Soul Eater.

Syndicate - February 29, 2024, 8:04 pm

DemonSlayer, Jujutsu Kaisen, Solo Leveling, and The Eminence in Shadow are ALL extremely good to watch

seagukkk - February 29, 2024, 8:47 pm

My favorite will always be classic Bleach, even if the vampire arc (bout or something similar, I never looked at how it was spelt) is dragged out and nothing but a whole filler season :')

Recently I've been watching every Solo Leveling episode as soon as it comes out though.

M1L3NK0 - February 29, 2024, 11:55 pm

Not really a huge anime fan, Soul Eater and Sword Art Online were my favorites.

Osuka - March 1, 2024, 10:12 pm

Haruhi suzumiya is good watch it

aphroditei - March 2, 2024, 1:17 am

Just finished Tokyo Revengers

It's freaking great, not very mainstream I guess but it's still great :)

jimmy4000 - March 3, 2024, 4:47 pm

Dragon Ball

dont really watch much anime

slaxx3r - March 4, 2024, 3:12 pm

Definitely Death Note

Chung - March 8, 2024, 6:40 am

Currently watching Demon Slayer. There was a few sort of fillers that was boring but it's back to the action which I'm really enjoying.

Definitely worth watching!

One Piece!

Other anime I've liked include Dragonball (all of them), Demon Slayer, Death Note, Orange, Attack on Titan, Full Metal Alchemist, Naruto, and Sword Art Online.

I-I - April 10, 2024, 1:50 pm

Hard to say, Attack on Titan was really good. Death Note I've seen at least 100 times.

I'm gonna go with Steins;Gate just because it's weird and is based on an internet meme.

Hajime no Ippo and Yuyuhakusho are definitely up there for me. Also all of dragon ball and anything related except GT. Naruto was amazing with tons of life lessons. One piece is inspirational for making life a journey and not an endless task. Plus Hunter X Hunter was legendary. Could go on, I have too many favorites haha can't make up my mind.

lisa_castro311 - May 11, 2024, 3:39 pm

Demon Slayer

This is mainly because my favorite character is also from demon slayer, but still it's a very solid anime; fantastic animation, great soundtrack, great characters, and an enjoyable plot that does justice to it all.

Skidsuper - May 13, 2024, 3:04 pm
