What's the next call of duty game gonna be about?

Jamika - January 27, 2024, 4:17 am

I dont know but will may be about russian war, or some thing as zombies

I've heard that they are developing another addition to the Black Ops series, and that's what I'm hoping for. Supposedly, it's going to be a direct sequel to Black Ops 2, taking place only five years later in 2030.

If that's the CoD released this year and it comes with round-based zombies, I'd buy it release day. Would be the first time in a long time I've bought 2 CoD's consecutively.

The next COD game will be COD Black Ops: Gulf War, a direct sequel to Cold War, releasing in late 2024. After that it will be a BO2 remaster in 2025.

That doesnt sound too bad tbh!

I'm not sure maybe a remaster of black ops 2

I wish I was interested enough to even speculate. I used to love COD, now its just fucking annoying buying a game that is filled with bugs on release. They release a rushed, broken game then just use us as free beta testers for 6 months. They keep begging everyone to pre-order it & its not even a completed game. Fuck COD franchise nowadays.

I heard it was going to be a bout the korean war

oRequiem - February 4, 2024, 7:32 pm

It's gonna be Black Ops: Gulf War.

Not sure if anyone remembers, but it was leaked before MW2 came out.

DemonAsylum - February 6, 2024, 6:11 pm

Like others have mentioned, should be Gulf War. Info has been out there for a bit. Not official of course, but just leaked stuff, however from sources that normally are on top of this kind of thing and correct. Treyarch is at the head of the multiplayer stuff so fingers crossed they come through well on that front as they usually do. Call of Duty doesn't hit anywhere near the same for me nowadays as it used to, but some games are still clearly above others to me.

I'm making a bold bet, but they will probably do a reboot of the infinite warfare series.

Would love to see a WaW remake eventually

How much did you smoke before typing this and where can I get some of that shit. ?

Duende - February 18, 2024, 4:49 pm

I strongly believe it'll be an Black Ops game.

kad - February 18, 2024, 6:14 pm

I heard it's a BO2 remasters but as long as it's similar to the black ops series with round-based maps I'm happy.
