if you're on android, i use this app called table habit (it's on f-droid) to keep track of daily habits. since i started posting on here again i added a habit for check ins. has worked pretty well so far, keeps me motivated with keeping streaks on other things like duolingo as well

edit: [app link for those interested](#)

Yes got same, after about 18 days, think it should just be not counted not to set into zero

Deany - January 31, 2024, 2:07 am

Keep grinding, I believe in you homie

LeetSpeed - January 31, 2024, 2:44 am

I remember being so close to getting it myself and got banned for like a day or something and ruined my streak. I ended up getting it though! Takes some perseverance though for sure.

Good idea, but had to set timer to see your pc or mobile daily first lol

I've been there before ? My first and second try fails but on the 3rd try I see to it that I will make it and will have that Everyday Ninja award ?

Charlie Sheen - January 31, 2024, 8:44 am

Go into one of the daily check in threads, and there's people that tag everyone daily to remind them to check in. I think [Yanix](#) does it. Just ask him to include your name in the tag and he will gladly do it. It helps a lot getting that daily ping.

?LEEP - January 31, 2024, 9:09 am

This is the first time I've been really chasing it and I only need less than 20 more days right now I think.

Literally this Monday I ruined my 75 day streak. Quite annoying.

M1L3NK0 - January 31, 2024, 10:46 am

I'm on my 2nd attempt right now, I tried once in early 2023 but ended up missing a day about a month in and gave up. I've gotten farther this time; we'll see if I can achieve it!
Now that I have a big stock-pile of bytes I'm sort of in it for the daily extra bytes as well so I can keep stacking it up lol.

V?rt - January 31, 2024, 12:08 pm

Yeah, the daily ninja has been getting the best of me for a while now. I've gotten within 20 days like 3 times. I always just end up going on vacation or something and completely forgetting to get online.

blackrose_x0x0 - January 31, 2024, 12:11 pm

It can be a really tough award to get making sure to check in literally every single day. It would be cool if there was an option to pay X amount of bytes to restore your streak like a lot of apps do (I'm looking at you Snapchat).

Monero-chan - January 31, 2024, 12:31 pm

I just set an alarm for when I was going for it, now I just go check in for the bytes.

Remember myself agonizing over getting this award for a while, once I was two days short of completing it and suddenly my interent refused to obey me ?

It was mega frustrating ?

Nonetheless, I'm glad I've got it over with and don't have to experience it again ?

P. S. Good luck to you, perseverance, sooner or later you will get it?

Are you on HF daily? If so, then [Yanix](#) daily reminder helped me a lot. Without him, I wouldn't have been able to do it to be honest.

Ya be proud. This shit is hardest thing since bbcs hit pornhub. Js bro
