The prices are quite confusing. For crypt, is it 45 euros or 45 + 25 euros? same goes for the lnk too. Can I get a vouch copy on file crypt

cltrade - February 1, 2024, 11:32 pm

So if I understand well, the crypt doesn't bypass UAC by default, one has to pay extra 25 euros for it, why not just add it all to the price, as I don't see why one would want a crypt that won't bypass UAC.

Inbtw, any vouch copy for the second plan?

GLWS

Crypt is 45€ without uac bypass

With uac is +25

Crypt + lnk 75€

You're right, I will make it better one price with uac bypass include. It was there as some users have requested crypt without uac.

Send me a message in telegram for sample demo build

Allone1 - February 9, 2024, 1:50 pm

hi, I'm interested in the .lnk file, how much is it undetectable in scantime and runtime? and how long does encryption take?
