Thread: [Bypass UAC help](#)

Gizmo1337 - February 3, 2024, 12:06 pm

How can i bypass UAC as a user without the UAC pop up?

I Need it for my rat,my crypter doesnt have bypass UAC.Is there any method or any rat that has silent UAC bypass?

Thanks in advance :)

Do you mean a bypass that hasn't been patched on the latest W11 and won't be detected by WD? The tutorial below is one that I know of. I've never actually gotten it to work, though.

Could give this a run. I have not tested it but it is worth a shot.

Tested on Windows 10 Enterprise 21H2 VM, does not work.
