Thread: [Cheapest Fortnite V-Bucks | Any Platform | WOW!](#)

THE RULER - February 8, 2024, 5:27 am

I think it is silly that this is being resold, it is very easy to to do, without the 30% markup. I will also be offering this though, wow.

This is done by purchasing vBucks through a linked microsoft account with an Argentinian/Egyptian or other RU/CIS countries payment method. If you can't figure out how to source a payment method yourself, just go through a reseller.

Offering each 13500 vbucks for 17.99\$

27000 VB | \$33.99
40500 VB | \$50.99
54000 VB | \$67.99
67500 VB | \$77.99
81000 VB | \$93.99
94500 VB | \$107.99
108000 VB | \$119.99

LOL SEE WHAT I DID THERE? INCREDIBLE.

Only need xbox details of the account. Can be either a main account or a fresh/alt created by you. You do not need xbox account, just hotmail, microsoft com account is fine to connect to your epic.

No paypal, no bank. Crypto only.
0% Ban rate

You can use your smurf / brand new account to get vbucks loaded and gift to your main if you are scared.
