Hey. I just need 10 bytes. It's pretty challenging to get bytes. Are there any other options besides log in /log off and creating unnecessary posts if you don't have nothing to say? ?

My guy just because you rolled someone that posted after midnight does not mean you do not have to pick a winner.

It's against the rules to make a fake contest or to not pay out.

Pick someone else.

Yes [Komodo](#). I will pick a winner. [Proof](#) said he will draw it on chat but i think he is not around. So i DMed [Cooligan](#) to draw instead. He agreed to do it and let me do a contract for formality on his MM services. I even DMed [Riggs](#) to do it.

I will not draw it myself cuz of me being the host.

Not my intention to delay it and as you said to fake it. It just so happened that the people i requested to do the picking is not responding or not online.

So i ask for your patience. I added an (ENDED) word in my thread so that there will be no more posting. If this is wrong then pardon me.

And thanks.

Gooootcha, that's my bad.

I thought when you quoted that last guy you were choosing him as the winner.

Take your time, there's no rush on picking a winner. Just thought you were trying to get out of picking one.

Again my bad lol.

Proof - February 11, 2024, 5:03 am

[sYndroM](#) as I mentioned, you needed to message me with the last post, but I took care of it for you. Post 29 was the last post made before 12AM EST. Post 30 was 34 minutes too late. Sorry [Onyxlife](#)

Winner: [Peffer](#)

EDIT:

Due to confusion around the exact date/which post number would have been the last before the contest ended. I have confirmed the winner is correct, but for the hell of it here is a runner up including the post number 30 which was 34 minutes beyond the deadline.

This was NOT in the OP or offering by [sYndroM](#) but I will pay 1,000 Bytes to [Komodo](#) congrats

In addition to this, I have decided to give [Jamika](#) 1,000 a runner-up prize at my own discretion given he missed the windows. BETTER BE ON TIME NEXT TIME [Jamika](#) this is a one time thing from me!

Shoutout to [sYndroM](#) props for hosting this give-away!

Thank you for understanding,
Proof
