I'm not sure how much you guys like Kanye, but recently he dropped his new album, one of 3 supposed albums that he's planning on releasing. What are your thoughts on the album? Do you like it? Or is it mid?

It's cool that he's promoting his daughter but I liked the going hard Kanye...

I feel a bit triggered that he is biting off black metal imagery.

I don't know if First Day Out part 2 with Rundown Spazz was AI or not. There's a lot of back and forth on it on other sites. But listening to that song had me pumped for this album, I was really hoping he went hard like that in this album and I am a little disappointed now after listening to it. Some of the songs are okay. I didn't find anything that I would hit repeat on.
