OP was kind enough to grant me a vouch copy. So, heres my honest feedback:

I was given a 20 page pdf. Excluding the cover and last page, there is 18 pages of content. In this guide, OP details how you can start earning online using affiliate marketing. The guide explains how to make content, build a traffic base around the content, how to direct the traffic towards funnels and landing pages that will help you get comissions. There are detailed explanations given with images of the actual websites used and examples of best practices to be followed.

OP states in the thread that you can expect earnings in six weeks or less and I think that is very doable if this is followed. Please note that you will have to keep pouring in the effort during this time and its not a one off setup and forget method. However, once the earnings start flowing, you can hire others to handle some of the workload.

I think the current pricing is okay and should not be increased further. Incase, the price is increased, there should be a degree of handholding and mentorship with this guide.

GLWS!

Hi everyone ,

I received a vouch copy of the method.

The methods mentioned in the PDF are very easy to follow and I am sure it will surely pay off. You will require some investment of time and effort in order to scale the methods.

Overall the pdf is well written with a number of methods that can surely give you profits. Will post payment proofs after I start using the methods. It also makes use of social media, affiliate marketing and AI.

Regards,
Hell
