Thread: [View Saved Wifi Passwords on Android Mobile](#)

conmalevn - February 13, 2024, 1:21 am

This is how I hack my neighbor's wifi. Priority is given to Android 5x or higher. You don't need to root your phone, just turn on GPS.

Download the Wifi app to test on Hung Minh's CH play

Here is a video tutorial on how to use the app:

https://www.youtube.com/watch?v=Xbek7HBs73w&ab_channel=H%C3%A0oAnh

(When using wifi priority, there is a high success rate and wifi is supported)

This is a video tutorial to see wifi password without root, just download the Router Setup Page app and follow the video instructions

App link:

<https://play.google.com/store/apps/details?id=com.ocapps.routerpage&hl=vi&fbclid=IwAR2-23cpuj-f2SaljToRcm3vLoz-q1hFpyKdFX3owCuGrVs1Rw42woEI5IM>

Instructional video

Are you saying you would install this on the phone you need the passwords from? I'm assuming you installed this on your neighbor's device, which is how you got their wifi?

Wow. Just wow. Your 'hack' is to have the victim use a Vietnamese language app to login to their router and then gain access to that app to see the router settings. ?
