Thread: [What's Your Achievement Count?](#)

For all of the achievement hunters or trophy hunters. How many do you currently have?
And what is your goal number to hit?

I will show how many I currently have on Steam.
I use to go for Playstation Trophies until I moved to PC Gaming.

My goal is to eventually hit 100,000 Achievements.

Wow! And I thought I was somewhat of an achievement hunter. Congrats!

Edit: Not sure why it cut the image as square, but I have 18,153 Total Achievements currently.

Funny seeing this thread as just recently I was thinking about getting back into achievement / trophy hunting again. Solid looking progress you have though. Best of luck on your road to 100k!
