I have finally figured this damn thing out. You can use etchdroid to mount the iso image on to the sd card as long as you have a card reader. No jailbreak needed. Pull the chip from the mp3 player format it put the chip in the card reader mount the image using etchdroid put it back in and your good to go.

I don't got a message from you on telegram. [deleted]

Gotta spell it out like that or else they will remove it [warn]

Where would I find a card reader..? Same place I found the phone..or can one be made inside.?

Ajw081015 - March 31, 2024, 9:04 pm

Same place you found the phone. I couldn't figure out how to make one
