...

Introducing the new and improved Apex Legends cheat! We first released our Apex product in 2019, but due to lack of customer interest, we temporarily halted production. However, we're excited to announce that it is back!

Our dedication to our craft has earned us the trust of thousands of satisfied customers and successful transactions.

We are confident that our product will meet and exceed your expectations.

Thank you for considering us and taking a look at this thread, and we can't wait to share our hard work with you.

Velocity has been in the market since late 2018 and, since then, has offered around-the-clock support to all clients.

Supported operating systems: Windows 10 (64 Bit) | 2004 - 21H2

Supported processors: Intel & AMD (64 Bit)

Features:

Shared configuration system

Aimbot

Radar (Items, Accessories, Gear, Regen, Weapons)

Chams

Misc exploits

Explore all of the 40+ features on our website, along with their usage descriptions.

Hey, hey. Our UI is completely written from scratch; the only third-party libraries used are XTK for some objects and Freetype. We have a custom font renderer, and it is running DirectX 11.
