Thread: [\[Make 1000\\$/Week\] Writing Fake Reviews on Drug stores](#)

1. First of all you must have a lot of patience. Seriously, if you are an ambitious teenager dreaming of a new laptop within few days – close this page. Your first attempt even may fail but it is successful, you'll get your first income in 2 or even 3 weeks.
2. Opera browser. It has a built-in VPN service, we will use this to register accounts.
3. Register ~20 accounts on weedmaps.com. It's an interactive map with all possible weed dealers, brands, clubs, doctors etc. around you. We take a random big US city for this time.
4. Register temporary email accounts on something like dropmail.me. It's free and easy.
5. Generate nicknames on spinxo.com
6. Pick the avatar. Search for "funny animal" in Google and choose any

The Process:

The process is easy. For this instance we choose random 2-3 weed dealers from the US with a delivery option. Now take 3 of your accounts and leave negative feedback to the dealer. Then upvote these reviews using the rest of your accounts.

Don't be too much emotional but reasonable. Write a review as you are a professional weed buyer, like a blogger or journalist. The reason why we must upvote the testimonial is that upvoted reviews always get to the top of the list, no matter if our account is young.

We have killed the business...

Now it's time get paid. Look for the telephone number or email on the dealer's page and text them something like:

"How are your reviews? I can fix it for \$300 a week to this Bitcoin wallet – your_btc_wallet".

\$300 per week is nothing for them because such shops make up to \$5000 daily.

Now wait. If they keep silence, place few neg reviews more. Then you can follow up your message to them and wait more. They have only two options now – leave the website or pay you the money.

This scheme seems to be very easy but it has some difficulties. If you make all mentioned above within a day, you will get blocked by admins, then you start over. For guaranteed success stretch it for 2-3 weeks period, no haste.

That's all. Leave your feedback or ask any questions below. Hope this guide will be useful and let you make few bucks while you are looking for another job.

While I applaud your ingenuity, you may wish to google the definition of a racket, or racketeering. That's what this is.

Probably one of the few groups of stores that wouldn't just send lawyers after you and drag you to court for mob-like shakedowns.
