Thread: [Techie's Crypto Exchange - \[H\] ETH/USDT/USDC/ and More\[N\] Paypal 10% - OG Exchanger](#)

Techie - February 24, 2024, 1:31 pm

Back with Exchanging Crypto for Paypal.

This time I am able to send you any ERC-20 tokens, including:

Ethereum
USDT (Tether)
USDC
LINK
MATIC
BNB

Many more. If you really need anything else, like BTC. Send me a message and we can find a solution for it.

Terms and conditions:

Minimum amount of 100 Euros - Max amount per payment is 475 Euros. No point asking for values that aren't in this interval. I'm able to do multiple of 475 if you need though.

Rate - 10% (100Euros worth of ETH = 110Euros on Paypal)

Paypal payments sent as Friends & Family and from Verified Accounts

Paypal payments always sent in Euros

I don't deal with people with 0 trades or new accounts.

If any of the above are broken, I will refund you the money minus whatever fees I have to pay for doing it.

I will have 2000€-10000€ to exchange on a monthly basis. I'm not actively looping Crypto-Fiat as an Exchange business model.

I don't go first under any circumstance other than you being one of the few users I have full trust on this platform.

Pretty much every single trade I have on this platform is from Currency Exchanges. If you have the need to do regular exchanges on a weekly/monthly basis, message me and I'll gladly cover your needs.
