Rules are:

Deal on-site, MM can be used if you wish.

Payment from your balance as F/F - I can choose to wait up to 24 hours if I deem the transaction to be sketch or if any issues arise due to your payment, at times I will refuse/refund payment.

You pay any currency conversion fees, in addition to this you will factor in the fees to send crypto.

I prefer LTC and other low fee crypto alternatives, I can get anything from Binance.

Fee rate: 10%.
