Thread: [OPEN YOUR BROWSER | MAKE MONEY BY DOING NOTHING | CRYPTO AIRDROP](#)
[<---](#)

Kalvaxas - February 26, 2024, 6:40 pm

Tired of your ISP screwing you over for outrageous internet plans? ?
Have unlimited bandwidth but never make use of it? ?
Willing to invest faith now and get paid a whole lot, after launch? ?

You can do JUST THAT right now, and I'm going to walk you through it. Keep on reading and find out how!

<https://app.getgrass.io/register/?referralCode=SEjU1qA4KHKj08o>

Now that you know what Grass is, how does it work?

Is it worth the time? ?
Is it even legal? ?
Will it impact my internet speed? ?
Will I even notice it? ?

Grass works by utilizing your EXCESS bandwidth, meaning whatever you're not using. You can still stream any video service, download huge files, or upload huge files. Or even do all of that at once. You'll never even notice Grass running in the background. Grass is an extension you install from the Chrome web store. Because of this, it's completely safe. You don't download anything on your computer either. All you need to do is install the extension, and that's literally it! No questions asked.

Grass IS still in beta phases which they call "Epoch". Once it goes live, you will be paid the cumulative compensation you've earned during the beta phases, which means you'll get paid MORE than what you would on a monthly basis when it's live. They also have a Discord server with over 150K members (which I cannot link as Discord servers are against HF TOS) but it's not hard to find.

[Just click ANYWHERE here, or on the banner above to sign up. You don't have to do literally anything at all once registered and set up. Just don't forget to claim your bonuses when you have enough points!](#)

<https://app.getgrass.io/register/?referralCode=SEjU1qA4KHKj08o>

EDIT: Grass has CONFIRMED to launch a governance token in the future so the users who earn points may be able to convert the points into their tokens when the token goes live. For crypto investors, this is a HUGE deal. Get in on it while you can!

Me408 - February 26, 2024, 8:33 pm

did any of this actually work?

stdio - February 26, 2024, 10:52 pm

Where to get started?

5imp - February 26, 2024, 11:00 pm

How do we get started ? Pm me lets work

Click the huge image. It's an embedded hyperlink. I'll post the link here though.

It's legit. A simple visit to their website will prove that.

Also, for those that don't know, they are now in Epoch 3, which means we're getting closer to a full launch. Get those points in now while you can if you haven't already. In the early stages (and Epoch 3), all points continue to carry over, which means at full launch, your payout will be much higher.

Kalvaxas - March 23, 2024, 9:23 pm

Supposedly Grass is confirmed to launch an airdrop in the near future, which you can get by redeeming your loyalty points. Since Grass is focused on AI, this may be a valuable asset! Get in on this while you can, folks! All you have to do is install a browser extension and let it run. That's it. You'll never even notice it as it doesn't slow down your internet speeds.
