Thread: [US Rental Numbers for Receiving SMS & Calls](#)

Money- - February 27, 2024, 2:50 am

I am looking for websites or apps or anything that I can rent the number monthly etc for USA?

US Rental Numbers for Receiving SMS & Calls.

Let me know.

I purchased a number for 1 year with TextNow and I've never had a problem signing up for anything with it. Was only \$5 a year. I know juicysms also allows number rentals.

I used to use textNow back years ago. Now I login back pops up country not supported.

They give u a number which u can verify stuff and keep it as well as pay / rent that number if u like it but yea eventually it got abused and most of the times some services ban these numbers.

Mine still works fine but I'm in USA. I still use mine frequently. Have you tried JuicySMS yet? I know they have a rental option as well.

Do you need to use VPNs for those? Every time you log back in or?
