Thread: [Bytes for boll votes?](#)

Jamika - March 2, 2024, 1:58 am

Hello admin and stuff

So i was asking, do we get bytes for everyone vote? Or only the voting member is who get the bytes?

I mean i made a vote in post and 60 voted, they got all, so i got also bytes or they? And if ee both how much i get?

Skorp - March 2, 2024, 11:08 am

As far as I know, you do not get Bytes for a vote in a poll. Were you just asking if you get Bytes for a vote or were you suggesting members get Bytes for a vote?

You should be getting them.

Just tested it now and dang you're right, never knew that after all this time!! Yikes. I guess since I didn't get no notification of it nor does it show up in ?ytes History, never thought I did receive Bytes (2B). I guess I'm so used to depending on ?ytes History when it is something other than a post.

If it's not in Bytes History I may have to look at that.

Yeah it still hasn't shown up in my ?ytes History yet and it has been around ~10 minutes since the vote. Not sure if it is a scheduled update or just not populating at all, but yeah nothing still. I can check back later if it updates after X time.

Bytes History is instantly recorded. I just have to look over the code and add some lines to do the history.
