Thread: [Smoke Loader?](#)

DarkElements - March 5, 2024, 7:23 am

Is smoke loader the best loader right now or what would you say is the best? I would like to see PC specs of my zombies like GPU but the main thing i want is a payload that acts good, persistant and as hiddenly as possible. Is it smoke loader im looking for?

Sand Ferret - March 5, 2024, 10:35 am

The only thing good about Smoke loader is their marketing.

Buer Loader, Amadey(without .dll drop plugins), xLoader are all adequate botnet/loader suggestions.

Persistence

michael9 - April 16, 2024, 10:11 am

Jinxloader was good but did not last
