I would be interested in receiving that vouch copy if possible. I'm just looking for a new signature image to replace the current one that I have. If I do like it, I will most likely be coming back to purchase a new thread design as well.

Also I recommend making a thread design for this post instead of just text. Gotta show off your work!

Do you have a portfolio to look at? All graphic artists have different styles, so it's essential to post that.
