Thread: [Buying Runescape Membership Codes, No Bonds/IG Trades](#)

Kaleb - March 6, 2024, 2:07 am

Looking to buy membership codes for OSRS/RS3 (they're interchangeable, real ones play OSRS). Not doing in game trades or paying with IG currency, deal will be handled on site.

Buy Rs3 Gold somewhere (I think it's around 2 cents now). 12 months membership (20 bonds), cost 2 billion rs3 gp which is around 40 dollar.

Kir never thought about it that way. I havent played rs3 since osrs came out. But def gonna look into as membership getting harder to find cheap else where. Appreciate you fella!

Np!

I might start playing again too. Let me know where you bought your rs gold. I don't remember where I used to buy it.

I develop a private RS3 bot. Never had an account banned. I stockpile bond codes.

If you still want these, let me know.

Edit: Am I allowed to do this as I'm a new member with no upgrades etc?

If not let me know. Not trying to break the rules.
