Thread: [Cloak Blackhat Discussion Group](#)

slezer - March 14, 2024, 9:34 am

I have created a blackhat discussion group on Telegram where like-minded people can help each other, collaborate on projects or simply talk about malware and everything related to it.

I've also created lists of tools like loaders, crypters, etc.

If you are interested in joining, message me here or on Telegram and I will reply to you with an invitation link.

Domestos - March 15, 2024, 6:41 am

I'd be most interested, sounds like something I'd really like to see!

Convo'ed you :)

Goat - March 16, 2024, 10:08 am

Hey Slezer,

I would love to join and take a look, maybe we can discuss and share some ideas?

Cheers,
Goat

Undead - March 17, 2024, 6:02 am

I'm a novice so probably won't be able to contribute much but really interested in learning about malware. Especially, the black hat side of it. Would love to join this given the opportunity.

Sent you a message on telegram, seems like it would be interesting to converse with others of such topics.

JNath - March 19, 2024, 7:13 am

Messaged you on telegram.

Stanley - April 6, 2024, 2:15 pm

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for

each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
