You could also try to flip some of your bytes. Beware...you could quickly lose them!

Get posting! You can leave a reply in the daily check-in thread for a possible chance to win a bonus. They are your best opportunities as a newcomer here. Once you start collecting them, then try your luck with blackjack or on the slot machines in the games section.

Just be consistent each day and post few posts and you will get bytes automaticaly

If you post high quality posts, you get some bytes for the post as well as people can quick love your message, and you can get some additional bytes.

Rahul007rhp - March 19, 2024, 12:08 am

I have sent you a QL atleast your now 10 bytes ahead

DemonAsylum - March 19, 2024, 12:50 am

Most attachments don't cost much so you can probably rack up enough by making a handful of posts. Keep them quality of course though. No one wants to see any LQ shit.
