Willing to give it a shot. Any vouches? Any reputable/old member vouch is Ok for me to buy \$5 worth to test.

If you don't have any on the other hand I'd be happy to test and vouch.

Be careful he is a scammer!

Bought yesterday 100 Bots + crypt for \$35 in Ethereum.

He said delivery in 1-3h. No delivery and no more response.

Seems like he blocked me in TG.

Hey,

I would deal with caution, I tried reaching out over telegram for his service but replys are short and does not like to respond. and above someone said he just blocked them or something. but i would love if someone had a legit bot shop for lower costs lol.
