How to earn ?ytes

Introduction

This is going to be a super easy, and new user friendly guide on how to earn bytes. I keep seeing countless threads on how to earn them, so here you go.

What are ?ytes?

?ytes are HackForums mode of on-site currency. Whether you want to bump your thread, download attachments, play Hackuman, or sell them for real world money, ?ytes are what makes HackForums go round. Below will be a ton of resources to get you all the ?ytes you need.

Making Posts or Threads

It's as easy as being active on the forum and making posts and threads.

2 ?ytes Per Reply

10 ?ytes Per New Thread

0 ?ytes Per Character

0 Earned ?ytes For Thread Starter On Each Reply

1 ?ytes Default On Signup

2 ?ytes Per Poll Creation

1 ?ytes Per Poll Vote

40 Min Characters Required

?ytes Lottery

The lottery is a place where you can buy a raffle ticket with ?ytes and have a chance at winning the grand total amount. This is a self hosted event, sometimes there are giant lotteries with 100,000+ ?ytes to win so lookout for a good one!

Link to Lottery: <https://hackforums.net/lottery.php>

Scratchcards

Scratchcards are just like real life lottery tickets, it's all based off luck. With these, the more you pay the much higher percentage chance you have at getting a large ?yte reward.

Blackjack

Come and stake your ?ytes in a game of Blackjack, one of my favorites!

Crypto Game

Same as real life Crypto, buy low and sell high! Very good way to earn ?ytes long term.

Link to Crypto Game: <https://hackforums.net/cryptogame.php>

Flipping

Flipping is done in the HF Convo Room, it's a coin flip on whether you win or lose your bet. Max bet is 10,000 ?ytes, hopefully you get a green streak!

Link to Convo: <https://hackforums.net/convo.php?action=all>

Upgrading your Account

Upgrading your account to L33t gets you 1,000 ?ytes

Upgrading your account to Ub3r gets you 5,000 ?ytes

Link to Upgrade: <https://hackforums.net/upgrade.php>

Purchasing Bytes

You can purchase bytes directly from a seller for about \$2.5 per 1,000. Make sure you are purchasing from a reputable dealer, don't trust just anyone with your byte money!

Selling Attachments

Very common in the Adult Content Management section. If you have a file or ebook you'd like to sell for bytes, make your bag.

Quick love

If you make a good enough thread or post you may ever get some Quick love. This is just like a reddit upvote button, but each time it's pressed the user who pressed it grants you 10 bytes.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
