Thread: [Suggest Anime to Watch](#)

Pantomath - March 27, 2024, 12:28 am

I've been watching adventurous, sci-fi, action and dark anime mostly. Recently watched Solo Leveling.

Was hoping if there's any good anime to suggestions?

Not big on Sci-fi, but you might like Metallic Rouge. Today is the last episode, I believe. I'm not a big fan of it, but it's decent. Just decent, nothing else. Lol.

The new Spring 2024 season starts in a couple of weeks, so I'm looking forward to that!

Thanks. Will check it out.

Although it depends what kind of stuff you are looking for but i would say attack on titan is good if you looking for anything apart from comedy, grand blue is peak comedy for sure, Death note is of course the og, code geass is also one of the peak big brain anime, Hunter x Hunter is the best adventure anime for sure, Full metal alchemist is also good but make sure to be patient with full metal alchemist and attack on titan they get good after some time

Haikyuu!!

Death Note

Fullmetal Alchemist

Probably the main one you should watch now since you love Death Note. A few others would be Fate Zero, Psycho Pass, Steins Gate, Ghost in the Shell, Darker
