Hello everyone, I am not sure if this is the right place to ask but I am just wondering what level (like L33T, Ub3r, etc) do I have to be to access marketplace lounges and sell things such as rats and crypters for cryptocurrencies etc?

L33T or Ub3r will allow you to post threads within the [Market tab](#). You can view more information regarding the benefits at [/upgrade.php](#).

[Upgrading Your Account](#) - Contains more information + additional upgrade information (V3ndor).

I recommend upgrading your account as well. There are so many perks and it's nice to meet other members and participate in groups
