Thread: [Someone on Upwork](#)

banonkiel - March 31, 2024, 7:54 pm

I won't get into too much everything in public, but here's exactly what I need.

Edit: Preferably, someone who has already done "hiring" on Upwork.

- Someone familiar enough with Upwork system.
- You will create a hiring job for \$5
- I will get someone to apply for that job.
- You will select them, wait couple of hours then mark it as complete and give them 5 stars.
- I will pay you \$10 in Crypto

I might need it done for couple of accounts, but currently only need it for one.

Discord in Signature and my Telegram is @banonkiel
[contract=tid]Start Contract[/contract]

I am not familiar with their system, but I'm sure I will have no issues navigating around and getting this done. Is that okay with you?

Done couple of deals with people on HF and off it.

Currently don't need more so I will close the thread.
Will open it or create another one if I need more.

Thanks and hope everyone is having a great day ^_^
