[Easy Silent Miner Method] Don't know how to set up a Silent Miner? Don't worry, we've all been there! If you're curious about Silent Mining but feeling a bit unsure, I've got your back. I've put together a simple guide that explains everything in plain, easy-to-understand terms. This guide will help with where to obtain the miner, setting up your miner, getting it up and running, and even how to share it with others using some proven spreading methods. If you have any questions or need a helping hand, just drop me a message on Telegram. I'm here to help, every step of the way.

I also offer the service to build the miner for you, and share the spreading method instead!
