it's not :) it is a paid academy. Youtube and github is your best friend.

But its a paid academy that's well-worth the money and will get you skills much more quickly than youtube and github will.

SilentNuke - April 15, 2024, 4:05 am

Thanks for this, however, the 634GB list, and the 1TB list either do not have download links, or the OP is no longer active so cannot send the links.

Appreciate the list tho, extremely helpful.

Stanley - July 3, 2024, 3:55 pm

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Hacker000 - July 27, 2024, 7:41 pm

Since joining HF, I have learned more and more knowledge!

Muffmuzzler - July 28, 2024, 3:31 am

BlackSoulZN5006 - August 1, 2024, 4:33 pm

Good resources you got there nice compilation.

T3n - August 8, 2024, 4:42 am

This is definitely a great kick start for beginners, we need to have this thread pinned so people will get right to it instead of making threads asking "how to start".

Then there will still be "Hi, I'm new here" threads.
