Sub to this youtube channel, comment below and I'll quick love your comment.

I know a QL isn't much but neither is subbing. This is more so to just help me out a little. If you want to help out watch a video or 2 as well after subbing, maybe like a few of them and comment. If you don't care for the QL just don't post or say in your post that you don't want it <3

Thank you all [^^]_/

I'll give it some more time but it's already been 10mins and I don't see a change in sub count. Usually it's instant. If you share a SS I can QL right away but without a SS I'm gonna wait until the sub count actually changes.
