Fries on bread. Either as an addition on meat, or just fries and sauce on bread, delicious.

In food.. hm idk. I can combine a lot of food together that many will find disgusting but I will eat it without a problem.

One that I recently found out was weird that I enjoy is Mayo on a hotdog. Just something about that slightly sweet mayo does it for me.

Sauerkraut. Everyone in my immediate family gags just even thinking about it. Where I happily eat it out of the jar with a fork.

It's no different than eating fruit cocktail out of a can, I assure you. Crap. Now I want a reuben sandwich.

Oh certainly, my new friend. I love peppers, especially in my cheesesteak sandwich.

I used to make a bagel, put cream cheese, honey, and cinnamon. Most people think it's gross but it's like a pastry.

Hmm. If I remember correctly, a peanut butter, jelly and ham sandwich was REALLY good. But I haven't had it for a long time

Beherit - April 11, 2024, 11:23 pm

Anything pumpkin spice I guess. No one in my family or friends like it besides white girls at Starbucks.
