Just contacted the guy, he refused to use middleman for 1 day trial which is \$170 by his words. Deal with caution!

forsure is a scammer. no one that offer such service here should expect someone to already have 5000 minutes worth of traffic daily. makes no sense to begin with.
theyre all resellers of resellers scamming each other with their fake activation fee.

100% scammer, don't do any deals without middleman.

Good evening everyone,

I just wanted to say that I have not offered this service since September 2024. In the meantime, my Telegram account had a different username. Therefore, the Telegram account SCARETH1337 currently is not me.

Someone has taken my old Telegram username and is now trying to scam people with it. Be aware that routes at those prices no longer exist nowadays, and I personally have not been offering these services for about two years now.

Don't be naive—check my last activity before contacting someone on Telegram. I haven't logged into HF for over a year.

Take care and stay safe.
