Thread: [Someone who can Rough Sketch / Draw](#)

I need Images Traced over

You also must have a camera than can take a clear photo of your drawing or a scanner as I need the result to put on my store.

I can pay UKBT, PayPal, CashApp. Please get in touch with what you would want for this. Also if you have it some of your other sketches would be nice to see. I tried using AI for this but it doesn't do it correctly.

Ive dealt with you before and your quality is too good and the price reflects that so I didn't bother messaging you. I wouldn't be willing to pay more than \$15-20 for this.

An example image would be this, with no shading or detail. Simply the outline, I can't post the images publicly that I want traced but for the record and anyone else reading they are very minimalistic due to the product type, its just basic shapes drawn out. Circles, Stars, Ovals etc.

STARTED A CONTRACT WITH @TheCuriousCoyote, THANKS AGAIN
